

**Capital Protection Rating**

An opinion on the relative certainty of capital preservation, that is, the timely repayment of the original investment as per agreed terms.

Scale	Definition
CPI	Very strong certainty of capital protection.
CP2+ , CP2	Strong certainty of capital protection.
CP3+ , CP3	Good certainty of capital protection.
CP4+ , CP4	Adequate certainty of capital protection.
CP5	Weak capital protection.

<p><b>Outlook (Stable, Positive, Negative, Developing)</b> Indicates the potential and direction of a rating over the intermediate term in response to trends in economic and/or fundamental business/financial conditions. It is not necessarily a precursor to a rating change. ‘Stable’ outlook means a rating is not likely to change. ‘Positive’ means it may be raised. ‘Negative’ means it may be lowered. Where the trends have conflicting elements, the outlook may be described as ‘Developing’.</p>	<p><b>Rating Watch</b> Alerts to the possibility of a rating change subsequent to, or, in anticipation of some material identifiable event with indeterminable rating implications. But it does not mean that a rating change is inevitable. A watch should be resolved within foreseeable future, but may continue if underlying circumstances are not settled. Rating watch may accompany rating outlook of the respective opinion.</p>	<p><b>Suspension</b> It is not possible to update an opinion due to lack of requisite information. Opinion should be resumed in foreseeable future. However, if this does not happen within six (6) months, the rating should be considered withdrawn.</p>	<p><b>Withdrawn</b> A rating is withdrawn on a) termination of rating mandate, b) cessation of underlying entity or c) the rating remains suspended for six months or d) PACRA finds it impractical to surveil the opinion due to lack of requisite information.</p>	<p><b>Harmonization</b> A change in rating due to revision in applicable methodology or underlying scale.</p>
